

## MAKE NEW RECORD

Baldwin Locomotive Building Works  
Are This Year Exceeding All  
Records in Their Output.

HE IS AN OLD WABASH MAN.

May Shows Increase of Business in the  
Decatur Yards—Personal Notes.

If the managers of the Baldwin Locomotive works are not disappointed in their expectations, the works will, by July, have completed the greatest number of engines in any six months in its history. The mark fixed by the officials of the works is the production for the six months is 1000 locomotives, which is equivalent to two-thirds of the output of 1902, when 1500 engines were completed, breaking all former records. For May the output was 150 locomotives and the same number were turned out in April. Of these 1,000 locomotives, the great majority were built upon orders placed last year. The demand upon the works has been so great as to make it practically impossible thus far this year to give much attention to the orders booked since Jan. 1. These orders have already reached a magnitude that will keep the works busy, despite their increased capacity, well into 1904. Reports from other locomotive works are of much the same character, and a large volume of business for 1904 is already assured. One member of the Baldwin firm says indications are that the wheat crop will be good, with fair prospects of a large corn crop; other crops will be bountiful, and he looks for freight congestions until this fall. The new roads will be so busy that there will be a demand for everything the locomotive works can turn out. The member of the firm quoted declined to discuss the statement made the other day by some one signing himself an employee of the Baldwin Locomotive works to the effect that there is a great falling off in the demand for compound locomotives, and that among the many orders for engines but one compound is under construction. From other sources it is learned that the compound locomotive no longer meets with the same favor that was accorded it several years ago.

**Began on the Wabash.**  
John Muhlfeld, who Monday became general superintendent of motive power of the Baltimore and Ohio, a few years ago was a special apprentice in the Wabash shops at Fort Wayne. He was born in Peru, Indiana, and served his apprenticeship until 1894, when he left the shops and became a fireman on the road. At the close of that service he was appointed foreman of the Wabash shops at Peru, and in 1897 was sent to St. Thomas to take charge of the Buffalo division shops. In a short time he was offered and accepted a better position on the Grand Trunk, going then to the Baltimore and Ohio, where he became superintendent of motive power of the New York division. Mr. Muhlfeld attended the public schools in Peru and later Purdue University.

**Increase in Business.**  
The report for the last ten days of May in the Wabash yards shows a considerable increase over the same days last year. The figures shown on the report are as follows:

	Last Year	This Year
Trains in	206	272
Trains out	201	263
Cars in	6720	8566

Cars out ..... 6740 ..... 8786 days.  
The report for the month of May complete shows a handsome increase in the volume of business handled:

	Last Year	This Year
Trains in	592	741
Trains out	567	724
Cars in	19,380	26,433
Cars out	19,155	26,797

**Fear Trouble is Coming.**  
The railroads entering St. Louis from the east fear that when the crest of the flood, which is now at Kansas City, has crossed the state of Missouri to St. Louis and joined with the flood of water now in the Mississippi river, that there will be trouble there. The flood crest is expected at St. Louis tomorrow or next day. The traveling public as a rule is content to stay out of the flood district and the ticket agents are not bothered with selling tickets into that territory. Yesterday was home seekers day, but there was practically nothing doing on the Wabash and the Illinois Central business was all to the north and northwest.

The passenger department of the Wabash has given instructions that no tickets are to be sold to Kansas City, Lexington, Junction, Mo., and west. All of the railroads have temporarily abandoned efforts to get Kansas City business.

**Cars Are Plentiful, But—**  
The car distribution on the middle division of the Wabash says that the supply of cars is much greater than it was some time ago, but that the demand is much greater. Monday and Tuesday as many as 100 empty Wabash cars were sent out of Chicago, but while the supply had increased there was even a greater increase in the number of orders which is again above six hundred daily.

Wabash passenger train No. 11 was an hour late yesterday as the result of a wreck a mile south of Marley where fourteen coal cars went into the ditch. The ditching of the coal cars was due to a broken flange.

Trainmaster O. E. Raily of the Van was here yesterday from Terre Haute.

Roadmaster L. A. Downs of the Illinois Central was here yesterday from Clinton.

W. W. Smith, mail transfer clerk at the station, has taken a five days leave of absence and "gone fishin'."

T. C. McDonald of the Illinois Central was here yesterday from Clinton and connected up the ice coils so that there could be cool water at the station fountains.

Engineer E. J. Wilkins of the Wabash will go to Springfield today to enter the hospital where he will submit to a minor surgical operation. He will keep him confined to that institution for a few days.

Conductor Eugene Terry of the Wabash is taking a vacation for a few days.

Edward Burke has taken service with the Wabash in the Decatur yards.

Conductor F. E. Jones of the Wabash is out of the service for a few days on account of the illness of his daughter. During his absence Conductor Morgan is on caboose 2202.

Conductor Boyd is on caboose 315 while Conductor McMillen is taking a short vacation.

Engineer Bob Kern is taking a rest of a few days.

Engineer Ed Brannon has reported for service after a vacation of a few days.

Engineer John Harry of Wabash engine 720 is taking a vacation for a few days.

Engineer T. J. Edwards of the Wabash yard force is taking a rest of a few days.

Fireman George Bates of the Wabash passenger service is out of service for a few days.

G. A. Hines, traveling passenger agent for the Illinois Central has returned to his territory after a trip to the south and was in Decatur yesterday.

Linn Clark of the Wabash trainmaster's office, was able to be at his desk yesterday after an illness of several days.

Wabash officials have not received any news that there is high water in the Illinois river bottom and they are hopeful that there will not be a repetition of the trouble, though slight, that they had there several weeks ago.

H. C. Kruse, who had been employed in the shops of the Pennsylvania company for forty-two years at Fort Wayne, was Monday placed on the pension list. His shopmates, through J. J. Bouquet, foreman, presented Mr. Kruse with a smoking jacket and a meerschaum pipe.

P. H. Morrissey, grand master of the Brotherhood of Railway Trainmen, recently re-elected, is forty-one years old, and has been an organizer among trainmen since 1883. He was born in Bloomington, Ill., and his first railway work was as a clerk of the Chicago & Alton railroad.

Fred Depew has taken a position as night switch tender in the Wabash yards.

Supt. Hatch of the Vandavia was in Decatur last night and in speaking of the possibilities of a crowd in this city on the 4th inst., said that he had not yet been able to get any definite information as to the number of persons that might come over that line, but that he hoped to be able today to get some figures on which he could rely in order that he might make preparations for handling the crowd.

Near Midland City Monday afternoon the east bound passenger train on the Van was delayed two hours. At that point the country is almost flat and the ground was covered with so much water that the train had to wait until the flood had somewhat subsided before proceeding. The tracks were not damaged by the water.

## NEW TELEPHONE PLANT

Talked of So Long Ago That It is All Forgotten Now.

Some months ago there was a positive statement that the Central Union Telephone company was to entirely rebuild their plant here and that in addition the company would erect its own building in this city.

Yesterday from a source outside of the city information came to the Herald that the requisitions for all of the material necessary to rebuild the plant had been made.

Last night when Manager Smith of the local office was asked about that statement he said that he had no means of knowing if that statement was true. Requisitions for materials were made through the construction department and the local managers, especially in cases such as rebuilding plants, were not bothered with the details.

When asked what he knew about the new building, he said "nothing." The last that he had heard was several months ago when the company, holding an option on two sites here, had asked for and received an extension of time they wanted. Beyond that he said that the building was being done at the headquarters where all such details were disposed of. He called attention to the fact that about May 1 there had been something of a reorganization of the company. At that time the question of a new building in Decatur was pending and that and other matters had not been completed to wait until the new officers had become familiar with the details. He ventured the opinion that some day the word "go" would be received and that would be all the notice that it would receive of the company's plans.

# MAYOR'S PROCLAMATION PLANS FOR PRESIDENT

Agent of the Party Here Yesterday and Approved the Committee's Arrangements  
--How the Carriages Will Line Up

## OBSERVE THE RULES

Don't Try to Break Through  
the Lines at Any Point

## TRAIN ARRIVES AT 3:15

The committee on arrangements for Roosevelt day in Decatur, June 4, met last night and made final arrangements for the president's visit. The special agent who goes several days in advance of the presidential party to inspect the arrangements made for the president's visit in the cities where he stops, was here from 5 to 8 o'clock Tuesday evening. He called on Postmaster Calhoun.

**Looked Over Plans.**  
A carriage was secured and Mayor Shilling and Mr. Calhoun, accompanying him to explain what had been done and what is contemplated.

They proceeded to the Wabash station, where they met Superintendent Robertson and all the arrangements for platform, roping of the same, roping of the way through the station, to the president's train, the course of the drive to reach the platform, and the plans for controlling the crowd were gone over and were approved by the special agent with a few modifications. The party then drove over the route selected from the station to the University, over which the presidential party will drive from the University to the station, which follows:

**Line of March.**  
Oakland avenue to West Wood street; thence on Wood to Pine; thence on Pine to Prairie avenue; thence on Prairie avenue to North Church; thence on North Church to West Main; thence on West Main to Lincoln Square; thence on East Main to Water street; thence on North Water street to North Main; thence on North Main to Cerro Gordo; thence on Cerro Gordo to Maryland street; thence to the main entrance of the Wabash station by way of the driveway passing along the Harpstrite building and the station.

The plans at the University were also approved. It took 18 minutes to cover the line of march.

**Will Keep Streets Open.**  
The line of the drive from the University to the station will be kept

**PROCLAMATION.**  
To the People of the City of Decatur.

In view of the forthcoming visit of the President of the United States I hereby call on all the citizens of Decatur to lend every assistance in doing honor to the Chief Magistrate of our nation. Especial attention is called to the importance of assisting the authorities in enforcing the regulations made for the people. All are urged to decorate their homes and places of business especially along the line of march, and that during the afternoon from 2 to 5 o'clock all places of business so far as possible be closed so that all employees may have full opportunity to join in the day's exercises.

CHARLES F. SHILLING,  
June 2, 1903. Mayor.

absolutely open, while the presidential party is passing. This is imperative and means that all persons and vehicles excepting the president's party must keep off those streets. By observing these requirements people will avoid the annoyance of being directed to leave the street and save those whose duty it is to keep the streets closed a vast amount of labor. Much of the way, especially the approaches to the stands and the stands themselves will be roped off and people will be required to keep back of the ropes. This is also imperative and should be observed by everybody without the necessity of the use of force. There will be opportunity at the University and at the station and on the route for everybody to see the president and at the same time observe the foregoing requirements.

**The Arrival.**  
The president's train will come from Springfield on the Wabash. The train will be backed down on the St. Louis branch to the West Main street crossing arriving there about 3:15 p. m. The presidential party will leave the train there and will walk between lines of school children to the platform which will be at the southeast corner of the University. After the president's speech the party will take carriages and be driven through the lines of children to Oakland avenue. As the train arrives the presidential salute will be fired in Fairview park. The report of this salute will be heard all over the city and will serve to notify the people of his arrival. The program as outlined will positively be carried out, rain or shine.

**The Personnel of the Party.**  
The presidential party will be dis-

tributed in carriages as it has been in all cities where it has had a drive. This order follows:

**Carriage No. 1.**  
The President.  
**Carriage No. 2.**

**Not Over Anxious.**  
The baseball fans at Springfield do not seem to be over anxious to get into the Three I league. Acting upon the invitation of President Sexton a meeting was called at the capital Monday night but the attendance was so small that nothing was attempted. It was thought that the fans of that city had not had sufficient notice of the offer and action was therefore postponed until a latter date. It seems that the people of Springfield do not read the papers. The town crier ought to be sent around to spread the news.

**American Association.**

**Western League.**  
Des Moines, 3; Denver, 1.  
Peoria—Postponed, water bound.  
Milwaukee—Postponed, flood bound.

**SPLINTERS OF SPORT.**  
Hackett with the Terre Haute team last season is now playing first base for the St. Louis Cardinals.

Manager Nicol is in trouble with two of his star players. Kennedy, the first baseman, and Pattison, the third baseman, got drunk in Rock Island and were shown up for two days. Nicol struck their names from his roster and left them to settle their hotel bills as best they can. He has fined both and expects to discipline them severely. It is claimed that Pattison's head has swollen so that it is difficult for him to get a Three-I league cap on it.

Rube Vickers has been sent home by Brooklyn. He could not win for them any better than he could for the Three-I league teams.

Perhaps the best known ball player ever turned out from this city, and the one that made his mark in the ranks of the profession, is Belden Hill, now manager of the Cedar Rapids club in the Three-I league. Hill has his first lessons in the game while yet a resident of Kewanee, but when he drifted to Galesburg to make his home he made the business of ball playing his calling during the summer months and it is due to him that in years past Galesburg was given some of the best games ever witnessed here. It was while he was manager of the independent team back in the nineties, when such men as "Bud" Fowler, Archie Cole, Bill Kreig, Vic Fowler, Bay Sanderson and others were members of the team, that things were lively. Hill is one of those ball players who saves his money, and today has quite a snug sum laid by. He is now a resident of Cedar Rapids, where he has a lucrative cigar business, and where he has a handsome wife and child—Galesburg Republican.

Rock Island has signed Pitcher Hoag recently released by Joliet.

Smith was released by Cedar Rapids and signed by Dubuque. Buelow is trying them all.

"I have been troubled for some time with indigestion and sour stomach," says Mrs. Sarah W. Curtis, of Lee, Mo., "and have been taking Chamberlain's Stomach and Liver Tablets which have helped me very much so that now I can eat many things that before I could not." If you have any trouble with your stomach, why not take these Tablets and get well? For sale by all druggists.

Carriages Nos. 10, 11 and 12 will be reserved for prominent citizens and visitors.

Goodman's band and the Maroa band will furnish the music and will spend the forenoon of Thursday entertaining the people in the business part of the city. In the afternoon the bands will go to the points where the president speaks.

**Keep Away from Carriage.**  
The president will not stop on the way from the University to the station but will in an open carriage of all those assembled along the route, hence the necessity for all remaining on the side walks and boulevards. It will be absolutely useless for any enthusiast to attempt to break into the street to shake hands with the president and it will be dangerous for any one to attempt it, as the secret service men and officers who accompany the president are unable to distinguish between friend and foe.

In the evening the people will be given a free entertainment at the race track by a magnificent display of fireworks which will be exhibited in the field in front of the amphitheatre.

**Both in Good Form.**

**On the Twelfth.**  
The manager of the American league ball team was in the city yesterday and closed a date with Manager Cessna of The Peoria line. Moveover will be here on the 12th, a week from Friday and will play the local club at the Association grounds. They expect to bring a big party here from Moveover and the chances are that the local fans will turn out in big numbers to see the contest. It promises to be the finest amateur ball game ever played in the city. Moveover has an exceptionally strong nine and the Peoria boys are a fast lot also.

**Little Oaks Won.**  
The Little Oaks defeated the Victors in a game Sunday afternoon by a score of 22 to 9.

**Not Over Anxious.**

Rube Vickers has been sent home by Brooklyn. He could not win for them any better than he could for the Three-I league teams.

Perhaps the best known ball player ever turned out from this city, and the one that made his mark in the ranks of the profession, is Belden Hill, now manager of the Cedar Rapids club in the Three-I league. Hill has his first lessons in the game while yet a resident of Kewanee, but when he drifted to Galesburg to make his home he made the business of ball playing his calling during the summer months and it is due to him that in years past Galesburg was given some of the best games ever witnessed here. It was while he was manager of the independent team back in the nineties, when such men as "Bud" Fowler, Archie Cole, Bill Kreig, Vic Fowler, Bay Sanderson and others were members of the team, that things were lively. Hill is one of those ball players who saves his money, and today has quite a snug sum laid by. He is now a resident of Cedar Rapids, where he has a lucrative cigar business, and where he has a handsome wife and child—Galesburg Republican.

Rock Island has signed Pitcher Hoag recently released by Joliet.

Smith was released by Cedar Rapids and signed by Dubuque. Buelow is trying them all.

"I have been troubled for some time with indigestion and sour stomach," says Mrs. Sarah W. Curtis, of Lee, Mo., "and have been taking Chamberlain's Stomach and Liver Tablets which have helped me very much so that now I can eat many things that before I could not." If you have any trouble with your stomach, why not take these Tablets and get well? For sale by all druggists.

**Entertain the Choir.**  
Rev. W. J. Davies and wife entertained the members of the church choir at their home on West Main street Tuesday night. There were but a few present and they spent an enjoyable evening. The time was spent in a social way and several musical selections were rendered. During the evening refreshments were served.

**His Last Hope.**  
(From the Sentinel, Galesburg, Mont.)  
In the first opening of Oklahoma to settlers in 1889, the editor of this paper was among the many seekers after fortune who made his first race one fine day in April. During his traveling about and afterwards his camp-much bad water, which, together with the severe heat, gave him a very severe diarrhoea which it seemed almost impossible to check, and, along with the case became so bad he had neighbors brought him one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a last hope. A big dose was given him while he was rolling about on the ground in great agony, and in a few minutes the dose was repeated. The good effect of the medicine was soon noticed and within an hour the patient was talking. His first sound sleep for a fortnight, a little food and a very comfortable, pleasant and happy life. The season for bowel disorders being at hand suggests this item. For sale by all druggists.

**THE JOINT HIGH COMMISSION**  
**Will Not Reconvene As Canada Won't Consider Reciprocity.**  
Washington, June 2—Hope of re-assembling the Joint Joint Commission on trade between the United States and Canada, abandoned. A few months ago everything presaged a meeting of the commission in Canada. Preliminary exchanges had taken place but Chamberlain's speech, in which he held out hope to Canada of preferential treatment for Canadian imports into Canada, caused a change in Canada's attitude. Reciprocity was the leading feature of the program to be submitted to the commission. The Canadians are now disposed to consider this and other subjects on the program are not considered of sufficient importance to reconvene commission.
